Bachelor of Science (Honours) in Accounting with Management & Analytics

MQF Level 6 | 180 ECTS

COURSE DESCRIPTION

This programme addresses the content typically studied for the ACCA and additionally addresses gaps in competences that are extremely important for professionals who aspire to managerial careers in finance. These include areas such as Artificial Intelligence, Business Analytics, FinTech, and Business Management.

Students will be exposed to fundamental principles across core disciplines in accounting, finance, management, and economics. Emphasis is placed on developing the students' transferable skills strengthening their analytical and problem-solving abilities. The course also delves deeper into aspects of taxation, performance management, audit and assurance. Students will have an opportunity to further develop their critical skills and deepen their knowledge of complex issues in accounting, management, and analytics.

Beyond the core units, students will undertake a project, focusing on a particular area that is of interest to them by choosing from accounting, management, and analytics units.
